EDUCATION.

Proceedings of the Government of Mysore,

Read:—

The Annual Report on the working of the Government Industrial School at Mysore for the year 1894-95.

1. *Establishment.*—Mr. M. V. Srinivasaiengar from the Madras School of Arts was appointed Superintendent on the 21st December 1894 in place of Mr. A. G R. Theobold transferred to the Forest Department, and Subbachari was appointed as temporary Instructor in wood-carving on the 8th February 1895. The staff during the year consisted of:—

1. Superintendent.
2. Drawing Instructor.
3. Mechanic.
4. Carpentry Instructor.
5. Masonry Instructor.
6. Iron Smith.
7. Cane Work Instructor.
8. Wood Carving Instructor.

The office establishment consisted of one Clerk, one Store-keeper, two Peons and a Sweeper

2. *The Committee.*—The committee for the management of the school was strengthened by the appointment of three additional members, Messrs. V. H. Karvi, Executive Engineer, Mysore Division, J.E.A. D'cruz, Assistant Engineer, Mysore Water-Supply Range, and R. V. Sundram Iyer, Municipal Engineer, Mysore. The number of committee meetings during the year was three.

3. *Strength of the School.*—The strength of the school at the beginning of the year under report was 64, and the year closed with 78 on the rolls. The conduct of the students was in general good. The following statements give an analysis of the school, classwar and communitywar:—

Class.	No.
1. Masonry class	15
2. Mechanic class	5
3. Smithy class	10
4. Carpentry class	28
5. Canework class	10
6. Weavers' class	10
Total	...78

Community.	No.
1. Europeans	...
2. Eurasians	...
3. Brahmins	9
4. Hindus other than Brahmins	50
5. Native Christians	7
6. Muhammadans	12
Total	...78

4. *Industries taught.*—The Instruction in the following subjects.—Carpentry, Fretwork, Canework, Smithy work—had so far advanced that the school was able to execute orders for the public to the extent of Rs. 1,202-1-9. Considering that the work and in fact the existence of the school had not been widely known to the public in general, the orders received from the public and the fact that the patronage of the public steadily increased, indicate that the efficiency of the students had attained a marketable value. The nature of the work turned out by the various class would give a fair idea of the efficiency of the students.

Class.	Cost of work turned out. Rs. a. p.	Nature of work.
Carpentry ...	676—8—7	Boxes, almirahs, pigeon hole cases, chairs, tables, writing desks, wall racks, cots, chest of drawers, &c.
Smithy ...	170—11—3	Iron lever padlocks, brass drawlocks, hinges, cot screws, steelknives, &c.
Ratton ...	146—14—2	Tiffen boxes, office trays, pan supari trays, chairs, madi boxes, waste paper baskets, &c.
Mechanic ...	73—3—7	Fancy baskets, easels book shelves, tray stands, brackets for clock, corner brackets, pen racks, paper cutters, &c.
Total ...	1,067—5—7	Note:—Besides this a great deal of work in the shape of sundry repairs was executed in every class.

The Industrial Education of the students is supplemented by a compulsory course in drawing and modelling comprising the following subjects :—

(*a*) Drawing comprising,

1. Free hand.
2. Geometry (Practical, plane and solid).
3. Model or object drawing.
4. Drawing from measurement.

(*b*) Modelling in clay.

The pottery class had to be closed last year for want of students. It will, however, be reopened this year, it is hoped, with better success. The amount of scholarships for this class should be increased as promised in proceedings of the Education Department, para 5, C No. 90-91, dated 3rd October 1894, as an additional inducement for students to take up this important branch of Industry.

In my opinion, if a couple of machines for the manufacture of tiles and bricks be supplied, the manufacture of ornamental flooring and roofing tiles can be introduced. As these tiles are in great demand, I am sanguine that this Industry will soon find favor with private capitalists and speedily spread through the Province, and it would in the meantime be a source of substantial support to the school. I have no faith in the manufacture of artware such as ornamental vases, &c., but the manufacture of superior pottery for every day use, goblets, pots and chatties, basins, and flower pots, ink bottles and jars, and the manufacture of tiles and bricks, will have a never failing commercial value, and command a steady sale.

5. *Machines.*—The small hand power machines have been freely used by the students. The present machines consist of the circular and hand saws, the mortising and drilling machines, and the turning lathes. It may be necessary later on to import a screw cutting lathe and a planing machine. The knowledge of working with machinery is admittedly of such growing importance in the present day that it is absolutely necessary that students should be conversant with their use. In the mean time the paramount importance of skilful manual labur shoud not be lost sight of.

6. *Scholarships.*—The monthly allotment of Rs. 150 for scholarships enabled 64 students to receive scholarships ranging from annas eight to rupees three per month according to qualification, conduct and attendence. I think the time has come when the importance of the Industrial Education imparted in the school, should outweigh the consideration of a small scholarship with the parents of students, and this cannot be made more patent to them than by the school employing the more skilful students on a small but progressive salary in executing the orders of the public and by making every endeavour to find employment elsewhere for the students of the institution.

7. *Prospects of employment of Students.*—There should be no difficulty in the students of the masonry, carpentry and smithy classes finding employment in the Public Works Department as Mestries and task workers. It seems to me in this connection that no matter how efficiently students are taught at school, it is essential that they should be made to spend at least six months at some building works, working as ordinary masons, carpenters and smiths before they are thrust on the Public Works Department or on any Railway Company. The cane-workers could be profitably employed by the school or should find no difficulty in making an independent living. The machanics and smiths should find according to their qualifications, easy admittance to factories and workshops in and out of the Province, where they would have ample opportunity while earning a small initial salary to perfect the elementary knowledge acquired in the school.

8. *Weavers' class.*—This class is an offshoot of the school, the teaching agency being a private establishment. The more advanced students are engaged in the manufacture of sheeting cloths, drills, checks and other ordinary cotton fabrics. The younger students are engaged in reeling cotton yarn. Government may extend its patronage to this class by giving it the contract for supplying the Stationery Department with office tape, tent tapes, and cotton rope, &c., and develope tape manufacture which is found a most paying industry in the Madras Jails. Similar offshoot of the school may be established by giving scholarships to apprentice students, who may be attached to the Mysore Artware manufactory or the brass works adjoining it, to enable them to acquire a knowledge of ivory inlaid work and brass work. The best policy would, of course, be to concentrate all these industries in a stable Government institution under the most experienced supervision.

The course suggested should therefore be regarded only as an alternative.

9. *Examinations.*—One student passed the elementary test of the Government Technical examinations in carpentry in the 1st class and stood 2nd in the Presidency. The annual examinations in the several subjects taught in the school, were conducted by the superintendent who informs me that the results on the whole were satisfactory. The committee have allotted the sum of Rs. 100 sanctioned last year as prizes to the best students, and arrangements are being made for an early distribution of prizes.

10. *Receipts and Expenditure.*—The receipts for the year amounted to Rs. 10,616-8-11. Out of this amount, the value of sale proceeds recovered during the year was Rs. 600-8-2, Rs. 601-9-7 remaining unrecovered; and the value under other miscellaneous receipts was Rs. 64-11-0. The total expenditure during the official year was Rs. 9,883-8-2.

11. *Accommodation.*—The school was removed to the building known as Hill-View, in the hope of acquiring more suitable accommodation than it had had in the old building, but I beg to submit that a Government Institution of this kind should be housed in a building specially constructed for it, with ample provision for all present requirements and for the future development of the institution.

12. *Evening Lectures on Technical subjects.*—The Institution may also have a couple of lecture rooms added to it where night lectures on technical subjects may be delivered to students of more advanced education and intelligence than those who are at present learning the industries taught in the school. Such subjects as Descriptive Geometry, Graphic statics, and applied mechanics, Technical Chemistry, Geology and Electricity, cannot fail to be of interest and instruction to students attending the various High Schools and Colleges at Mysore. These lectures may be conducted as cheaply as is done at the Victoria Technical Institute, Madras.

13. *General Instruction.*—Such of the students whose knowledge in their vernaculars was below the required standard, attended the night schools and received instructions in Kanarese Reading, Writing and Arithmetic. Several of the students took advantage of the night school recently established at Ittigegud and situated conveniently close to the school

14. *General Remarks. Age limit for admission.*—I beg to submit for the consideration of Government, again the question of raising the age limit of students for admission to the school. There are many students who are unsuccessful in qualifying for Government service and prove failures in schools engaged in General Education so to speak. These students of mediocre intellectual capacity often evince a special aptitude for the acquisition of Industrial knowledge and are found to possess, in a remarkable degree, the patience, powers of observation and physique required for Industrial pursuits. They are at present debarred from an institution that might greatly benefit them. The Superintendent reports that the students and the instructors have worked satisfactorily during the year and that the progress of the school may be considered satisfactory. He has been advised to insist on an out-turn of work without neglecting the required finish and quality of the work in every Department.

No. 12365-400—Ed. F. 4-96, dated, Bangalore, 11th May 1896.

Order thereon.—The receipts of the institution during the year under review amounted to Rs. 10,616-8-11 against an expenditure of Rs. 9,833-8-2. Manufactured articles of the value of Rs. 1,202-1-9 were sold to the public and out of this, Rs. 600-8-2 were recovered and included under receipts. The Committee should take steps to recover the large outstanding balance of Rs. 601-9-7 as early as practicable, and a detailed statement of the items making up the total receipts should be furnished.

2. For reviving and improving the pottery class the Committee propose additional inducements to students, presumably of the indigenous class of potters, and recommend the importation of machines for the manufacture of ornamental flooring and roofing tiles and bricks and of pottery of various kinds. The Government approve of the Committee's recommendation and would also suggest the manufacture of other building materials and glazed earthenware of the kind made in the Bazel Mission, which would find a speedy and profitable sale.

3. To the stock of machinery in use in the school the Government authorize the addition of a screw-cutting lathe and a planing machine. Their estimated cost as well as the cost of the machines recommended for the manufacture of earthenware should be reported for the final orders of Government.

4. The proposed employment of the more skilful students in the manner suggested by the Committee, in paras 6 and 7 of the report, seems desirable.

5. Adverting to para 8 of the report, relating to the weavers' class, Government consider that cotton and woollen carpet making may also be revived and encouraged, and the advantage of procuring supplies of tapes and cotton ropes from the Industrial School may be suggested to the Superintendent of Stationery and Stores and to heads of Departments.

6. The suggestion of the committee to encourage knowledge of ivory inlaid work and brass work by attaching stipended apprentices to the artware manufactory and the brass works adjoining it, is approved. The manufacture of inlaid ivory work is chiefly confined to a few Shiya Muhamadan families in Mysore, and some of the apprentices in this branch of art may be selected from them.

7. It is noted with satisfaction that during the year a student of the institution passed successfully the elementary test of the Madras Government Technical Examination in Carpentry.

8. The Committee propose to accommodate the institution in a building specially constructed and adopted to all its requirements including suitable rooms for lecturing on technical subjects. This as well as the suggested mode of conducting lectures will be separately considered.

9. As regards the age-limit of students referred to in para 14, Government have no information as to the practice now obtaining. This should now be furnished together with the Committee's suggestion.

10. The Government are glad to note that the report is on the whole satisfactory. It is hoped that the next report will show further good results. The thanks of Government will be conveyed to the Committee and to the Honorary Secretary for their labors in connection with the management of the institution.

Proceedings of the Government of Mysore,

READ.—

Letter No. 194, dated 28th April 1896, from the Senior Surgeon, &c., in charge of the Lunatic Asylum, Bangalore.

I have the honor to request that Magistrates may, when ordering the detention of insanes in the Lunatic Asylum, be requested to give as much information as they possibly can under the different headings in the statement which accompanies the order for detention.

In some statements received with insane persons not even the sex is stated, and absolutely no other information is given except that the person is above a certain age.

No. 12508-17—J. 1425, DATED, BANGALORE, 14TH MAY 1896.

ORDER THEREON.—In drawing the attention of District Magistrates to the Senior Surgeon's letter read above Government direct that in future full information, as far as possible, be invariably furnished under the several headings in the statement accompanying the order for detention of insane persons in the Lunatic Asylum at Bangalore.

C. SREENIVASIENGAR,
Secy. to Govt., Gen. and Rev. Depts.

READ:—

Correspondence ending with letter No. 5714, dated 16th April 1896, from the Comptroller, Mysore Government, in regard to the mode of adjusting the charges incurred for conveying unclaimed dead bodies to hospitals for *post mortem* examination in cases of suspicious death.

No. 10111-21—Fl. 723, DATED, BANGALORE, 16TH MAY 1896.

ORDER THEREON.—In a Circular which the Inspector General of Police has issued to Deputy Commissioners of Districts, No. 2329-105, dated 15th January 1896, he has directed, with a view to secure uniformity of practice, that as a general rule the dead bodies in cases of the kind referred to above shall be conveyed to hospitals by village servants who would get no remuneration therefor, but where charges are necessarily incurred on this account the proper course is to debit the same to the Revenue Department which will pay the amount, charging it to the head "XXIV Miscellaneous" as is the practice at present in some of the Districts.

2. As the practice, on which this Circular order is based, was one of questionable propriety, and as the Inspector General of Police had inadvertently issued the order without the sanction of Government, a reference was made to the Comptroller, who now reports that, heretofore, the charges in question were debited in some instances to "Law and Justice" and in other cases to "XXIV Miscellaneous, Interring Paupers." He, however, submits that as the *post mortem* examination is conducted for judicial purposes the proper head to which the charges incurred therefor are debitable, is "Law and Justice." In concurrence with this opinion Government are pleased to direct that in future such charges be debited to the head "Law and Justice" instead of to "XXIV Miscellaneous." The Inspector General of Police will issue modified instructions accordingly.

No. 12789-97—J. 1464, DATED, BANGALORE, 26TH MAY 1896.

ORDER.—When a communication relating to the arrest of a person in British Territory, in connection with an extraditable offence, is received by a District Magistrate in Mysore, either through the Residency or otherwise, care should be taken to ascertain, at once, the date of arrest of the offender; and the application, for the surrender of the accused person with summary of evidence, should be transmitted, with the least practicable delay, so as to ensure the same reaching this office in sufficient time before the expiry of the period of two months prescribed in Section 16 of Act XXI of 1879 (The Foreign Jurisdiction and Extradition Act).

Proceedings of the Government of Mysore,

READ:—

Docket, dated 4th May 1896, No. 1127—838, from the Deputy Commissioner of the Shimoga District, submitting the explanation called for in Government Proceedings, dated 4th March 1896, No. 10151-7—L. F. 94-95, in regard to the District Fund Budget estimates of the Shimoga Circle for 1896-97.

No. 12499-502—L. F. 94-95, DATED, BANGALORE, 14TH MAY 1896.

ORDER THEREON.—As the work of metalling a portion of the Honnali-Shikarpur road within the limits of the Shikarpur Municipality is to be executed by the Public Works Department the provision of Rs. 500 made for it will be allowed to stand under A. Public Works to be executed by Public Works Department.

2. The details of original works to be executed in the several taluks of the district, at an aggregate cost of Rs. 4,000, should, as already called for, be submitted at an early date.

3. The provision made for a moiety of the salary of an extra midwife will, as now recommended, be retained in the Budget, to be utilized, if necessary, upon a separate application when the question of employing an extra midwife for the district is finally settled.

4. *Sweepers for Travellers', Bangalos.*—The amount actually required to meet the salaries of servants employed in the III Class Travellers' Bangalos and Musafirkhanas is Rs. 2,152, as stated in Government Proceedings, dated 1st April 1896, No. 11197-8—L. F. 74-94, and not Rs. 3,292 as entered in the original budget. The estimate will be reduced accordingly to Rs. 2,152.

5. The Deputy Commissioner is requested to expedite the submission of the details of the lump sum provision of Rs. 3,000 made in the Budget on account of conservancy charges called for in para 10 of Proceedings, dated 4th March 1896, No. 10151-7—L. F. 94-95.

No. 9901-8—R. 3812, DATED, CAMP MYSORE, 6TH MAY 1896.

ORDER.—Government are pleased to direct that in cases in which survey numbers, portions of which are proposed to be alienated, consist of several descriptions of land assessed at different rates, the particulars thereof be fully entered in columns 6, 7, 10 and 11 of the alienation statement.

READ :—

Letter No. 1725, dated 9th May 1896, from the First Assistant to the Resident in Mysore.

In continuation of this office letter No. 2711, dated the 18th July 1895, I am directed to state that it appears to the Director General of Statistics that in some places there has been some uncertainty as to the manner in which the form for the return showing the state of coffee cultivation should be filled up, and that it is expedient that such uncertainty should, as far as possible, be removed. He, therefore, suggests, with the approval of the Government of India, that when the form is circulated to planters all the copies so circulated should have appended to them the notes which are appended to the form enclosed in this letter.

2. I am to request that the suggestion of the Director General of Statistics may be kindly complied with.

Coffee.

Statement illustrative of the state of coffee cultivation in India during the calendar year.

Province and Districts.	Number of plantations.	Total number of persons employed during the year.		Area in acres.				Total yield in lbs.
		Actual number permanently employed throughout the year.	Average daily number temporarily employed during the year.	Under mature plants.	Under immature plants.	Total area under coffee.	Taken up for planting but not yet planted.	
1	2	3	4	5	6	7	8	9
Total ...								

Column 3—The number of persons permanently employed in the estate throughout the year should be entered. For example, if an estate has 20 persons permanently employed, the entry should be 20

Column 4—The number of persons employed for any period less than a year should be multiplied by the number of days in that period, and the total divided by 365, the result being entered in this column. For example, if an estate employed 30 persons for 90 days, 40 for 60 days and 100 for 45 days—

$30 \times 90 = 2,700$
$40 \times 60 = 2,400$
$100 \times 45 = 4,500$

divide the total 9,600 by 365 (days in the year). The result is 26, which is the figure to be entered in this column.

Columns 5 and 6.—Mature plants are plants over three years old; immature plants are plants less than three years old, that is, still unfit for bearing.

NOTE—(a) The return should be despatched to the Statistical Bureau, Calcutta, by the 1st July each year.
(b) Explanations of noticeable variations in the figures of the year compared with the previous year, together with any information regarding the character of the season and crop in the and other points of interest connected with the condition and prospects of the industry, should be furnished.
(c) If any rectifications or additional particulars are received after the return for the year has been submitted a supplementary return for that year should be forwarded.

No. 10188-96—R. 4013, DATED, BANGALORE, 22ND MAY 1896.

ORDER THEREON.—Ordered that copies of the letter read above and of its enclosure be forwarded to the Deputy Commissioners of Districts for information and guidance.

2. The Deputy Commissioners should submit, along with their future returns, a report furnishing the information called for in note (*b*) attached to the form herewith circulated. The attention of the Deputy Commissioners is invited to note (*c*).

3. The Superintendent, Government Press, will furnish the Government with 500 spare copies of the form of the statement of coffee cultivation for distribution.

C. SREENIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The Deputy Commissioners of the Hassan and Kadur Districts, with 200 spare forms of the statement.
The Deputy Commissioner, Shimoga District, with 25 spare forms of the statement
The Deputy Commissioners of other Districts, with five spare forms of the statement.
The Superintendent, Government Press, with the sample form.

READ THE FOLLOWING PAPERS:—

1. Government Proceedings No. 5513-16—R. F. 6-95, dated 11th December 1895, sanctioning the appropriation for building purposes, of certain lands allotted for soppinbetta mufat in the Tirthahalli Taluk, and directing the Deputy Commissioners of Kadur and Hassan to report whether any modification of the existing law under Section 39 of the Land Revenue Code is necessary.

2. Letter No. 454, dated 20th December 1895, from the Deputy Commissioner, Kadur District, stating that no modification is necessary, as the Dewan's reply to Subject No. 75 in the Dasara Proceedings Book for the year 1891, allows of a raiyat erecting without permission, temporary houses on Government unassessed waste land provided he executes a muchalika undertaking to give it up without compensation when required for other purposes.

3. Letter No. 853, dated 28th March 1896, from the Deputy Commissioner, Hassan District, suggesting that in the Malnad parts, the Deputy Commissioners may be empowered to grant building sites under two acres out of lands specially assigned for gomal.

No. 10063-65—R. 3873, DATED, BANGALORE, 12TH MAY 1896.

ORDER THEREON.—The Deputy Commissioners have power to permit kharab lands being appropriated for building purposes. The grant of a similar power as regards lands specially reserved under Section 39 of the Land Revenue Code seems unnecessary. In cases of real necessity, there is no difficulty or delay in obtaining the sanction of Government. The amendment of Section 39 does not therefore seem desirable.

2. The Dewan's concession referred in the Kadur Deputy Commissioner's letter above read cannot refer to reserved lands, what was meant being the relaxation of restrictions for obtaining unassessed or kharab lands for building purposes.

C. SREENIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The Deputy Commissioners of Shimoga, Hassan and Kadur Districts.

No. 9898—R. F. 151-93-94, DATED, BANGALORE, 6TH MAY 1896.

ORDER THEREON.—The minimum stock prescribed being 17,500 gallons the annexed abstract shows the maximum the stock reached and the minimum it fell to during each fortnight, together with the number of days the stock was short of the prescribed minimum.

In July 1894 the stock fell during eleven days below the minimum. The fall during eight days of the above period has been explained as due to heavy issues, but why it continued so during the other eight days is not clear.

In February, March, April, May and July 1895 the fall of stock below the minimum on forty-two days is noticeable owing to its frequent recurrence. On three days in July 1895 it is stated to have been due to the stoppage of stills for connecting water-pipes, but the fall during the remaining period has not been explained.

It is hoped that such instances will not recur in future.

With the foregoing remarks the returns are recorded.

Letter No. 3653—342, dated the 1st May 1896, from the Conservator of Forests in Mysore, submitting for sanction an application from the Deputy Commissioner of Kadur for the free grant of 165 cart-loads of unreserved wood and 18,625 bamboos valued at Rs. 1,248-2-0, to certain mohatarfa and kandayam-paying raiyats in the town of Tarikere to enable them to re build their houses which were destroyed by an accidental fire.

No. 2952-3—Ft. F. 120-95, DATED, MYSORE, 8TH MAY 1896.

ORDER THEREON.—The Government observe that the majority of the persons in whose favor the grant has been made are not agriculturists. Even in the case of the few that own lands the concession allowed is in excess of a year's assessment. The quantity of wood granted is large and the Deputy Commissioner seems to have erred on the side of liberality as remarked by the Conservator of Forests. In some cases he has exceeded his powers of sanction.

2. Under the peculiar circumstances, however, reported by the Deputy Commissioner, his action is approved as a special case, the wood being cut and removed from the District Jungle.

3. In future more liberal grants than those sanctioned by the Rules should not be made without the previous permission of Government.

PETITION.

Proceedings of the Government of Mysore,

No. 10000-8—P. F. 69-95, DATED, MYSORE, 12TH MAY 1896.

ORDER.—An instance having come to the notice of Government in which the holder of a land in the Koratagere sub-taluk had, with the connivance of local officials, leased the date trees thereon on his own account to the Government contractor, notwithstanding that at the time of the grant of the land for cultivation the right to the date trees thereon had been expressly reserved to Government, Deputy Commissioners of Districts are requested to have a register, in the accompanying form, kept in each taluk, of the date trees reserved in each survey number given out for cultivation. Extracts from this register should be sent, from time to time, to the Patels and Shanbhogs who, as well as the Excise officials, should be held responsible for the preservation of the date trees so reserved. These should see that the holders of the survey numbers do not interfere with the trees thus reserved. The natural propagation of such reserved trees, so long as it does not interfere with the cultivation of the lands which have actually been brought under cultivation, should not also be prevented.

C. SREENIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The Deputy Commissioners of Districts.
The Excise Commissioner in Mysore.

Petition No. 3061, received on 16th May 1895, from Virabhadrasetti of Chikmagalur, complaining of the fine of Rs. 12-8-0 imposed upon petitioner by the Deputy Commissioner, Kadur District, on the ground that he encroached upon 39 guntas of land out of Survey No. 18 in Byneheddalu village which adjoins Survey No. 101 of Channegaudanhalli in his holding, and urging that the encroachment was due to the limits of land No. 101 not being distinguishable as their boundary marks were missing.

(2) Letter No. 95, dated 31st July 1895, from the Deputy Commissioner, Kadur District, reporting on the above petition.

(3) Letter No. 755, dated 30th April 1896, from the same officer, stating, with reference to Government Order No. 8783—P. 1769, dated 24th March 1896, that as petitioner had been put in possession of Survey No. 101 in due course, he was expected to know the boundary thereof, that the petitioner applied for the adjoining land and cultivated it in hopes possibly of its being given to him for an upset price; that this is a common practice in the malnad and the offenders deserve some severe punishment; and that petitioner's defence was not taken as he failed to appear at the Huzur jamabandi which took place in the very hobli in which the land is situate and must, therefore, have been known to petitioner.

No. 10242-9—Pet. 2017, DATED, BANGALORE, 22ND MAY 1896.

ORDER THEREON.—The order of the Deputy Commissioner is on the whole fair. The fine is not excessive. It is admitted that the petitioner did encroach upon Survey No. 18. Ignorance of the boundaries does not furnish a valid defence, as it is clearly the duty of the occupant of a survey number to know the limits of his holding and to maintain the boundary marks in good order. This appeal is, therefore, rejected.

2. Government observe that the petitioner ought to have been served with a notice to appear when his case was decided. The mere fact that the Huzur jamabandi was held in the hobli in which the petitioner's land is situate cannot be taken as sufficient notice to him. A written notice must be invariably served in such cases.

Secy. to Govt., Gen. and Rev. Depts.
